**Two Dates
Only!!
22 & 23
October
2010**

BEN HUR - THE STADIUM SPECTACULAR will be the biggest theatrical event ever seen in Australia.

Direct from Europe, this world tour premiere brings to life the classic tale made famous by the eleven time Academy Award winning 1959 Hollywood movie 'Ben Hur' starring Charlton Heston.

BEN HUR - THE STADIUM SPECTACULAR combines the scale of the Sydney Olympic Games Opening Ceremony with the drama of the slave who dared defy the Roman Empire.

The monumental \$15 million stadium adaptation, has been crafted by renowned French director Robert Hossein and produced by STADEFRANCE Live Events. The performance features a live chariot race with 32 horses, a giant Roman galleon and a grand stage which will transform ANZ Stadium into the biggest Roman amphitheatre ever seen.

Now, this stadium-sized, once in a lifetime entertainment extravaganza comes exclusively to Sydney for two nights only.

Make sure you book early to avoid disappointment. With only two shows in Australia this tour is sure to sell out quickly. Call us today to arrange your booking.
